ACTIU

A welcoming
embrace.

Un *abrazo*
de bienvenida.

Meetia is more than a collection of sofas, it's a statement of style and functionality. With its oak or fabric effect exterior and softly upholstered interior in fully sustainable fabrics, each Meetia piece is like a welcoming embrace.

Meetia, es más que una colección de sofás, es una declaración de estilo y funcionalidad. Con su exterior de efecto roble o tela y su interior suavemente tapizado con telas totalmente sostenibles, cada pieza de Meetia es como un abrazo de bienvenida.

“We have worked together refining the intuition of the initial design that has finally materialised thanks to the industry. In Meetia, all the creativity, energy and know-how of both parties converge to give life to a piece that aims to be extremely simple. The interesting thing about it is that it is familiar, but somehow it surprises you”.

“Hemos trabajado conjuntamente refinando la intuición del diseño inicial que se ha materializado, finalmente, gracias a la industria. En Meetia convergen toda la creatividad, energía y know-how de ambas partes para dar vida a una pieza que busca ser extremadamente simple. Lo interesante de ella es que te resulta familiar, pero que, de alguna forma, te sorprende”

The elegance
of *industrial style*

La elegancia
del *estilo industrial*

The Meetia collection fuses the elegance of industrial style with the functionality of furniture designed especially for the hospitality and contract sector. With an aesthetic that combines the robustness characteristic of industrial style with carefully crafted details, these sofas and armchairs stand out for their sophistication and versatility.

La colección Meetia fusiona la elegancia del estilo industrial con la funcionalidad de los muebles diseñados especialmente para el sector hospitality y contract. Con una estética que combina la robustez característica del estilo industrial con detalles cuidadosamente elaborados, estos sofás y sillones destacan por su sofisticación y versatilidad.

*Tubular
structure*

*Estructura
tubular*

The tubular steel frame around the perimeter gives distinction and character to each piece in the collection, while the upholstered seat, made from high quality materials such as beech wood and 30 kg density foam, ensures optimum comfort for those who enjoy it.

La estructura de tubo de acero perimetral confiere distinción y un carácter marcado a cada pieza de la colección, mientras que el asiento enfundado, fabricado con materiales de alta calidad como madera de haya y espuma de densidad 30 Kg, asegura un confort óptimo para quienes lo disfrutan.

MEETIA

Sustainability / Sostenibilidad

Sustainability is not only applying efficient production processes and sustainable materials, sustainability is also ensuring the optimisation of the entire process including transport, storage, circularity, life and end of life of the product,

This also implies a value attributed to the product (being competitive in a market segment in which you no longer compete solely on price) and a cost optimisation effect that is also perceived by the customer.

It is not usual to find a product with a design to DISASSEMBLE in soft seating. This is in Actiu's DNA and the fact that it can be disassembled has a direct impact on CO2 emissions from transport (both internal logistics and shipping), in the same way that it optimises shipping and storage, generating REAL sustainability that is also perceptible to the user (reducing costs and facilitating its commercialisation).

La sostenibilidad no es sólo aplicar procesos productivos eficientes y materias sostenibles, sostenibilidad también es velar por la optimización de todo el proceso incluido el transporte, almacenamiento, circularidad, vida y fin de vida del producto,

Esto supone además de un valor atribuido al producto (estando competitivo en un segmento de mercado en el que ya no compites únicamente por precio) y efecto de optimización de los costes que percibe también el cliente.

No es habitual un producto soft seating DESMONTABLE. Esto va en el ADN de Actiu y el que sea desmontable impacta de forma directa en las emisiones de CO2 por transporte (tanto logística interna como en expediciones), del mismo modo que optimiza los envíos y su almacenamiento, generando una sostenibilidad REAL percible también para el usuario (reduciendo los costes y facilitando su comercialización).

Technical summary / Resumen técnico

Tube finishes with epoxy coatings, coatings in semi-matt finishes and steel finishes semi-matt and steel finishes

Acabados de tubo con recubrimientos epoxi, recubrimientos en acabados semi-mates y acabados acerados

Perimeter steel tube Ø16mm and 2,5 mm thick
Tubo perimetral de acero de Ø16mm y 2,5 mm de espesor

Sheathed panel with 12mm MDF core upholstered exterior or Oak and upholstered interior

Panel enfundado con núcleo de MDF 12mm Exterior tapizado o Roble e interior tapizado

Outer cutting foams of 60 Kg inner cutting foams of 30 Kg
Espumas de corte exteriores de 60 Kg e interiores de 30 Kg

Monocolour and two-colour upholstery
Tapizados Monocolor y Bicolor

Structure clipped together, forming the set of arms and backrest
Estructura clipada entre sí, formando el conjunto de brazos y respaldo

Seat made of 25 mm thick beechwood with inner support and springs for improved comfort

Asiento enfundado fabricado con soporte interior en madera de haya de espesor 25 mm y resortes que mejoran el confort

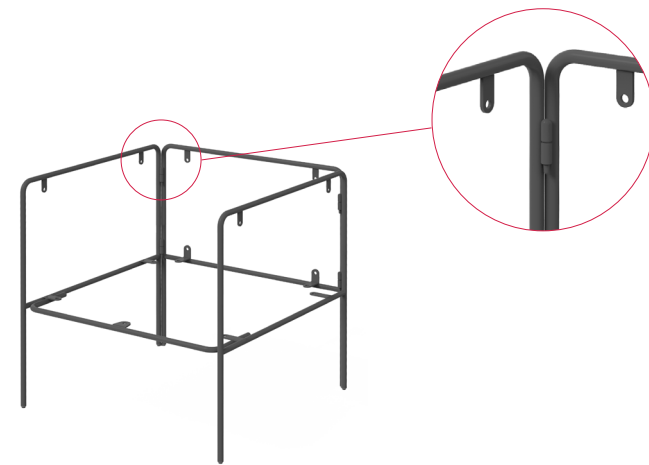

MEETIA

The product can be **DISASSEMBLED**. This facilitates its production, consuming fewer resources, taking up less space, both in internal and external logistics (less footprint and impact), but it also means less volume during storage.

El producto es **DESMONTABLE**. Esto facilita su producción, consumiendo menos recursos, ocupando menos espacio, tanto en la logística interna como externa (menor huella e impacto), pero también implica menor volumen durante su almacenamiento.

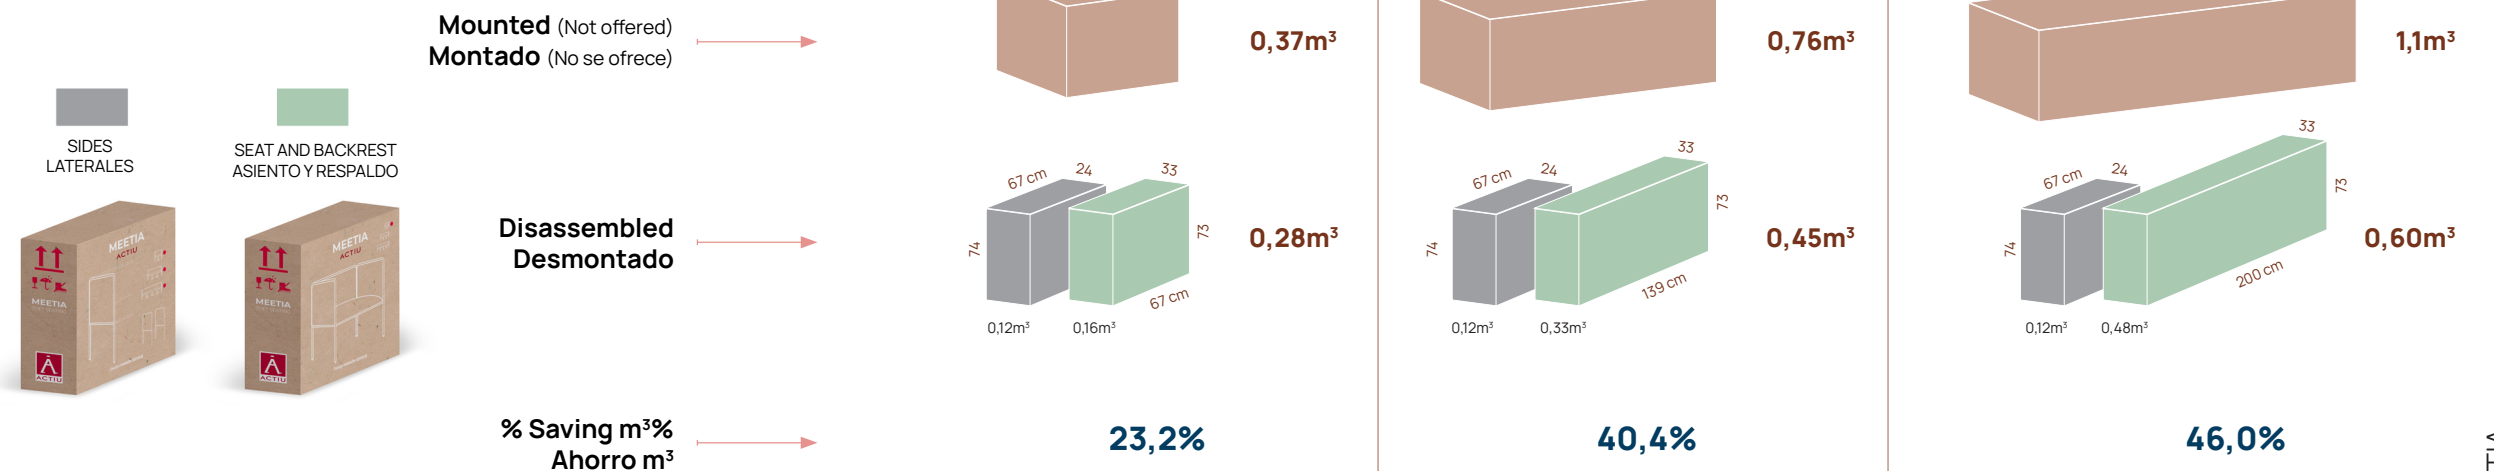

Easy and quick assembly / Facilidad y rápido montaje

Optimisation m³ transport and storage / Optimización m³ transporte y almacenamiento

Meetia is offered in two packs, one with common sides for the 3 models (armchair, 2-seater sofa and 3-seater sofa) and another pack containing the backrest and seat. In this way, shipping is optimised, obtaining a space saving in m³ of between 26.3% and 43.4%, which contributes to our philosophy of sustainability and optimisation of resources.

Meetia se ofrece en dos packs, uno de laterales común para los 3 modelos (sillón, sofá 2 plazas y sofá 3 plazas) y otro pack que contiene el respaldo y asiento. De esta forma se optimiza el envío obteniendo un ahorro de espacio en m³ entre el 26,3% y el 43,4%, lo que contribuye a nuestra filosofía sobre la sostenibilidad y optimización de recursos.
